

## **Construction circular saw CBL 450**

- heavy construction and fully galvanised
- powerful electric motor with brake
- table made of steel with aluminium insert
- lockable switch with no-voltage release

# CBL 450

## Construction circular saw

## CBL 450

|   |                           |                         |
|---|---------------------------|-------------------------|
| brake motor   | 230 V~ 50 Hz (AC)         | 400 V3~ 50 Hz (3-phase) |
| input power P <sub>1</sub>                                  | 3000 W                    | 4400 W                  |
| output power P <sub>2</sub>                                 | 2200 W                    | 3500 W                  |
| fuse rating (inert)   | 16 A                      |                         |
| hard metal saw blade  | Ø 450 x 2.8/3.8 mm        |                         |
| number of teeth   | 40                        |                         |
| saw blade bore  | Ø 30 mm                   |                         |
| cutting height  | approx. 150 mm            |                         |
| rip- and mitre fence  | 0° - 45°                  |                         |
| table extension   | 720 x 660 mm              |                         |
| table   | 1000 x 660 mm             |                         |
| table height  | 850 mm                    |                         |
| sound pressure level the workstation L <sub>PA</sub>        | 94.5 dB (A); K=4.0 dB (A) |                         |
| guaranteed sound power level L <sub>WA</sub>                | 110 dB (A); K=4.0 dB (A)  |                         |
| CEE-plug incorporating phase-shifting for 3-phase operation | ✗                         | ✓                       |
| lockable switch with no-voltage release                     | ✓                         | ✓                       |
